Dear The Federal Communications Commission,

I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

Consumers already pay ON EVERY PHONE (local phone, long distance bill, cell phone) the Universal Connectivity fee, the 911 tax, schools get computers fee, regular tax, and the fee to keep our old phone number in case we ever leave it and come back (and we aren't leaving it because there are no other local phone companies to leave to !). please do not put on the consumers more fees. My phone bills already have over \$6.00 per month in taxes and fees.

Thank you, Vicki Lemaster cc: Marlene Dortch, Secretary

Sincerely,

vicki lemaster
